SUMMARY

This year's event was met with some hardship from the start. First, we were dealing with the tail-end of a global pandemic and trying to determine whether this event was even possible. Then, if it is possible, how do we conduct the event safely for attendees and participants? Lastly, will the weather cooperate?

Well, we did have to reschedule from April 27th to May 6th due to weather. However, that did not appear to adversely impact the event in a measurable way.

Saving Bodies, Minds, & Hearts 2021 was a success and a further demonstration of how interconnected, committed, and invested our response community is and how interested everyone is in engaging with that network of professionals who have so much to offer.

“
*Staff was really
informative and
interacted
wonderfully with
the different people*

The response from the community was resoundingly positive. We anticipate this event growing in 2022.

Mark your calendars for 6/2/22!

We are grateful to have this opportunity to serve our community and look forward to continuing our work with our members, partners, and friends.
